

THE LION OF A LEADER

THE WORLD DESERVES

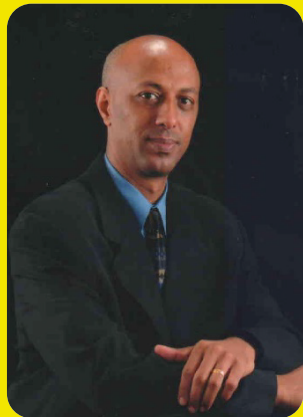

Anosognosia of the Leftist and Liberalism Governance Disorder.

"**THE LION OF A LEADER THE WORLD DESERVES: Anosognosia of the Leftist and Liberalism Governance Disorder**" is a piercing analysis of the United States' (as a model) current trajectory.

The book explores how these political frameworks, heralded as champions of progress and equality, have increasingly failed to recognize their internal dysfunctions and blind spots. Through the lens of anosognosia—a psychological condition where a person is unaware of their own physical and mental impairment—the book shows that a dangerous disconnect from reality and humanity marks contemporary governance under these ideologies.

The author critically examines how the culture wars of delusion, denialism, and normalization of inversion and perversion of ideals have led to a systemic disorder in political thought and policy, posing significant threats and challenges to the stability and integrity of future Democratic societies.

From social justice movements undermining unity to policies favoring ideological purity over practical governance, "**THE LION OF A LEADER THE WORLD DESERVE**" calls for a bold reassessment of the nation's direction. It encourages readers to confront uncomfortable truths about the current state and the urgent need for a visionary figure to restore sanity to a nation adrift.

About the author

Yakob Adhanom has an educational background in theology, sociology, psychology, leadership, and counseling. He is the founder of Procurement Investment Group LLC and Procurement Investment Group LLC Limousines, works for Gwinnett County Public Schools, and has experience in radio broadcasting and freelancing. Adhanom believes he could be an inspiring voice behind this book because he lived through firsthand experience working and volunteering in communities. With related experience in helping people, Adhanom offers a unique perspective on the convergence of governance, psychology, faith, and cultural trends in modern America. Adhanom lives in the suburbs of Atlanta with his wife and their adult son and daughter.
